EXAMINER'S AMENDMENT

- 1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 2. Authorization for this examiner's amendment was given in a telephone interview with Angela Dai on March 1, 2004.
- 3. The application has been amended as follows:
 - A) Claim 30 (Amended) A method for determining whether an individual has an increased risk of developing HH disease comprising:

obtaining SLC11A3 DNA from the individual and

assessing the SLC11A3 DNA sequence for the identity of the nucleotide at position 734 (A734C) of SEQ ID NO: 1,

wherein the presence of the A nucleotide indicates the absence of a HH gene mutation in the genome of the individual and

wherein the presence of the C nucleotide indicates the presence of the HH gene mutation and an increased risk of developing HH disease in the genome of the individual.

4. The following is an examiner's statement of reasons for allowance.

The drawings have not been entered for the reasons previously of record.

The claims are drawn to a nucleic acid sequence comprising a mutation and a method of determining whether the mutation is present as indicative of an increased risk of developing HH disease.

Application/Control Number: 09/973,180 Page 3

Art Unit: 1634

An isolated nucleic acid of SEQ ID NO: 1 is free of the art. The art does not teach cDNA from the SLC11A3 (SEQ ID NO: 1) containing a mutation in exon 5, position 734 which results in a transversion between an A-C. The instant specification states that "all symptomatic HH patients contain a heterozygous A-to-C transversion at position 734 (A734C) compared to 200 healthy controls (page 25, para 63). The specification states that the base change is the causative mutation for HH.

- 5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (571) 272-0743. The examiner can normally be reached Monday-Friday from 6:00 a.m. to 3:30 p.m.
